

CANDIDATE TO THE BOARD

Full Name*: Hervé ROBIN

Nationality*: France

Children's Class*: CP, CP

Experience/Areas of Expertise*:

- Good knowledge of the local culture, speak mandarin fluently 24 years in China and Hong Kong
- Ability to manage multi-cultural teams
- Expertise in complex project management
- Expertise in strategic decision making and process
- Good expertise in negotiation especially with complex projects
- Human resources management

What I hope to bring to the Board of Directors* (12 lines max.):

I am 47, married, my wife is Chinese, we have 2 kids in primary (CPE&CPG) at TKO. I am an Engineer from Mines Paris, I arrived China (Beijing) 24 years ago, moved to Hong Kong last year.

I am an entrepreneur in the High Tech Industry and in the past 2 decades I created several successful business in China. I speak fluently Chinese (Mandarin), English and French.

In joining the Board of the LIFS my goal is to bring my time, energy and expertise to help the Team with strategic decision and managing the important projects that are currently open.

Now that the vote is closed and that the parents community have expressed their decision and a majority is clear, the coming year is going to be intense and crucial for the future of the school.

I believe I can help the community in managing the challenges ahead and successfully move the school in the direction expressed by this vote

I am personally deeply involved in the academic education of my children and I have a strong interest in education. I come from a family of teachers and professors and this is something I like very much. I understand the challenges of teaching especially in a multi cultural community and with kids of different background but this is what motivates me also.

We've just moved to Hong Kong last year and we plan to stay here for the long term so I am fully available for a 3 years mandate.
